Editorial

Welcome to Praz-sur-Arly, a mountain village in the Haute Savoie region where the mountain lives all year round. 2026 is a very special year for our village, because we are celebrating the 20 years of the Diamant ski area, a unique ski domain that links together 6 ski resorts and offers all winter sports fans an exceptional panoramic view of the Mont Blanc, Aravis, Beaufortain and Ecrins mountain ranges. Two decades of shared adventures, altitude emotions and unforgettable memories that we can't wait to celebrate with you. During the summer our lake in the heart of the mountains is a true haven to relax and bathe in the fresh clear water. With the choice between laziness, nautical activities and the fun activities on offer, it is the ideal place to make the most of the sun and recharge your batteries together as a family. Cycling fans are not forgotten in Praz either : cyclists and mountain bikers will find a super playground here that lives up to their ambitions. Mythical mountain passes, marked itineraries, technical descents or rides that are accessible to all: each turn of the pedal is a promise of escape and freedom. Throughout the seasons, Praz-sur-Arly incarnates a lively and authentic mountain spirit. Between well preserved nature, heritage, gastronomy and the art of living, our village cultivates a strong identity : one that knows how to welcome, surprise and inspire you. Whether you are sporty, contemplative, a foodie or simply after experiencing true and simple moments, Praz-sur-Arly opens its heart to you in 2026.

The Praz-sur-Arly Tourist Office association thanks its 156 members (accommodation providers, shopkeepers, activity providers) and its partner: Sun Valley.

on our internet site

HOT AIR BALLOONING

From Saturday 10th to Sunday 18th January 2026, more than 30 hot air balloons will decorate the sky above Praz-sur-Arly and marvel their passengers during their unforgettable first flight, for the 35th edition of the international Montgolfiades.

DISCOVER

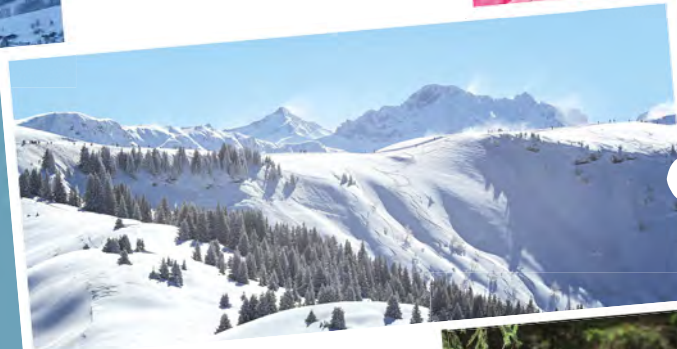

15TH AUGUST SALES AND CAR BOOT SALE

On the 15th of August, don't miss the big sales and car boot sale in the village ! A convivial day to browse around, find good bargains and share a festive moment in the village.

20 YEARS OF THE ESPACE DIAMANT SKI AREA

From the 31st of January to the 1st of February 2026, come and enjoy the birthday celebrations with us and share the emotion of a domain that never ends to surprise you !

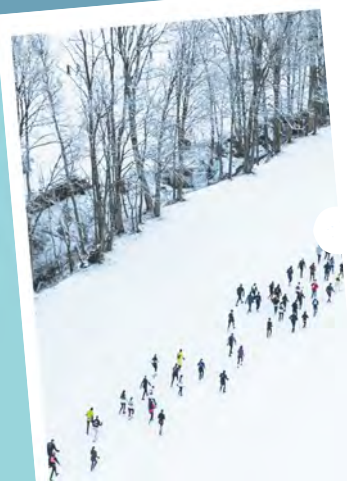

RETRO-AUTOMOBILES

Some of them are almost a century old, but they are the most beautiful to take out for a drive. On Sunday, August 23, 2026, the enthusiasts from "Le Cheval Mécanique" will present their finest cars for you to discover.

DRAGONALE GIVRÉE

The Praz-sur-Arly white trail is back on Sunday 1st February under the name of «La Dragonale Givrée» with two snowy trails of 12km (5900+ elevation gain) and 8km (3500+ elevation gain). Open to everyone aged 15 and above.

CHALLENGE

MB RACE

It's quite simply the most difficult mountain bike race in the world. With 8 routes going up to 140km long and navigating between the summits around Mont Blanc and the Val d'Arly, it seduces almost 3000 participants each year, from children to pros. A new edition is planned for Saturday 4th and Sunday 5th July 2026.

DIVE INTO THE HEART OF THE MONTGOLFIADES

by *Xavier and Caroline* **HIKES & TRAVEL**

We were lucky enough to be invited right into the heart of this event to experience it and share it with you, as if you were there... There were different activities scheduled during the Montgolfiades weekend, particularly for families, including Mini Hot Air Balloons and "Teddy Bear Flights". Where children could bring their soft toy along with them to give them a mini flight and receive a souvenir photo. There were also workshops, such as building wooden figures or kites, and rifle shooting. It was with the Team Ballon Yutz, led by Gégé and Coco (Gérard and Christian), that we had the chance to fully experience this activity from start to finish, with the invaluable support of Pauline, Gérard's daughter, who competes in the French championships ! We were able to help them set up the basket and inflate the sail (balloon) part. To begin with, the basket lies on the ground and is connected to the balloon. A large fan blows air inside while the team secures the top section. Once the balloon is properly inflated with cold air, Pauline activates the burner to heat the air, and the hot air balloon can then take off. Before the burner was lit, we even had the chance to step inside the balloon: an absolutely incredible and amazing experience!

Finally, the basket rights itself, the balloon rises, and we were able to climb inside before gaining altitude. The takeoff is smooth: you barely feel yourself leaving the ground, with no sensation of vertigo at all...

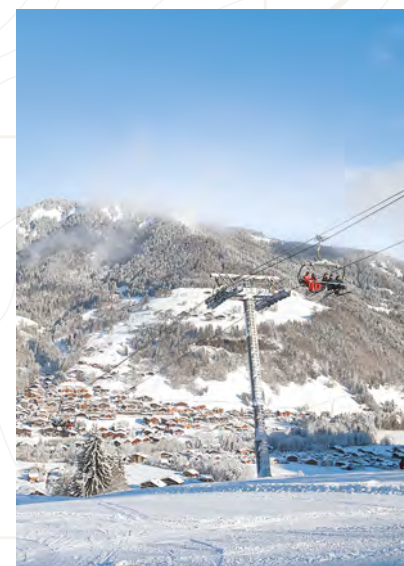

The hot air balloon travels with the wind, and we were pushed to the wrong side of the valley, which shortened our flight, but it was memorable nonetheless ! We were able to admire the entire Aravis mountain range, especially the Mont Charvin and the Mont-Blanc massif, surrounded by other hot air balloons. We finally landed safely in a small alpine pasture accessible via a forest road. In general, the pilots try to land near roads to make it easier to recover the very heavy equipment: the balloon alone weighs about 135 kg, and the basket has to be loaded onto the trailer. Before leaving our crew, we had a toast to the association with crémant (a sparkling wine) and were presented with our hot air ballooning ascent certificate ! An unforgettable experience, shared with a fantastic team!

20 YEARS OF THE ESPACE DIAMANT

In 2025 the Espace Diamant celebrates its 20 years. For two decades already, this vast skiing domain links 6 resorts with character : Praz-sur-Arly, Flumet, Notre-Dame-de-Bellecombe, Crest-Voland/Cohennoz, Les Saisies and Hauteluce. Each resort has managed to preserve its village soul, its identity and traditions, all the while participating in a common project : which is to offer all mountain lovers a play area that is exceptional, authentic and accessible.

A VISION BORN FROM UNITY

Twenty years ago, the idea of connecting these resorts seemed audacious. However, it quickly found its purpose: to allow skiers to cover a vast domain of 192 km of pistes, with the majestic Mont-Blanc as a backdrop, all without losing the charm of skiing on a 'human scale'. The Espace Diamant was born from this desire to share, to unite forces and landscapes in order to create a unique experience, blending sport, pleasure and discovery.

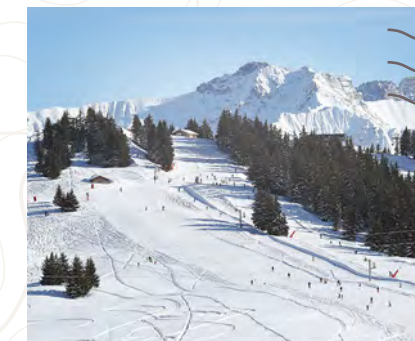

PRAZ-SUR-ARLY AN ACTOR AND WITNESS TO THE ADVENTURE

For Praz-sur-Arly, the Espace Diamant is much more than a linked skiing domain : It's a story of family and conviviality. The resort, renowned for its warm welcome and magnificent decor, has always made a point of discovering the mountain in all its facets. Thanks to the Espace Diamant, holidaymakers can broaden their horizons, explore snowy forests, go along panoramic crests, cross alpine pastures, or even join other villages for a gourmet or cultural break.

SHARED MEMORIES

These 20 years represent countless stories. Children putting on their first pair of skis, families enjoying sunny descents, enthusiasts carving their tracks at daybreak, or groups of friends exploring new pistes. Each turn, each run, each summit becomes a memory that connects the generations and illustrates the most precious thing about the mountain: its capacity to bring people together.

A FUTURE TO BUILD TOGETHER

Today, the Espace Diamant is not just looking at its past. This anniversary is also an opportunity to look towards tomorrow: a future where the mountain will continue to be experienced with authenticity, gentleness, and respect for the environment. All the resorts are united together to pursue their commitment to offering more responsible tourism, varied experiences, and an infrastructure adapted to the expectations of the new generations of holidaymakers.

A BIG ANNIVERSARY CELEBRATION

This winter, Praz-sur-Arly and all their partner resorts invite you to celebrate this symbolic anniversary. Activities, festive events, and convivial moments will set the pace for the season, ensuring that everyone can take part in this wonderful collective adventure.

CHARLINE BERNADOU

Freeride ski athlete and ski instructor, Charline Bernadou achieved two podium finishes at the Freeride World Tour Qualifier. She is now successfully following the path she has chosen for herself. Charline discovered freeriding thanks to her uncle and with the club, riding the fresh powder. Full of drive and highly motivated, her main strength is still risk-taking: "When I put on my skis, I go for it, I stop thinking, I forget my shyness," she confided to us.

Charline intends to improve her consistency and manage tricks that will help her reach the top level. She hopes to find a way to balance instructing with the freeride season, saying, "I have few slots available for training from February onwards. Both activities (teaching and training) overlap." She is very grateful, and thanks the Praz-sur-Arly town council for their support, Wedze for the loan of equipment, and her coach and sponsor, Damien Ouvrier-Bonnaz, for his guidance during the races.

ANTONIN CHIBERCHE

In the film we see the risks that you take, you are playing with fire skating on blades that are 4mm wide and 20cm long.

Yes it's a risky sport, which takes a lot of energy from me, as well as from my physio, my family and friends, and my physical trainer Bastien Durand, who has been there since the beginning and who also trains the tennis player Lois Bosson. I am fully aware that the reason I am here today is thanks to everybody's support.

Hello Antonin, you are part of the Spanish Ice Cross Federation. We discovered you in our magazine in 2024, in an article dedicated to the discovery of this impressive, lesser known sport. Today you are part of a new adventure, the making of a film to show us behind the scenes and to prove that it's good to believe in your dreams.

In this film, I wanted to highlight the entire sporting aspect, the relationship with my partners, my family and friends, everyone who supports me, and to show that we are also reaching a new scale. The sport was created by Red Bull in 2001, and it received huge media coverage for 17 years. In 2018, Red Bull withdrew. Thanks to this documentary, we aim to show the beauty of the sport above all, through simple values such as commitment, family, and following your dream.

What are your goals for the upcoming months ?

I do my physical training on the pumptracks of the region, where I really like to train. Then, as for specific training, at the beginning of January I will go (in between two races) to the ice pistes in Austria.

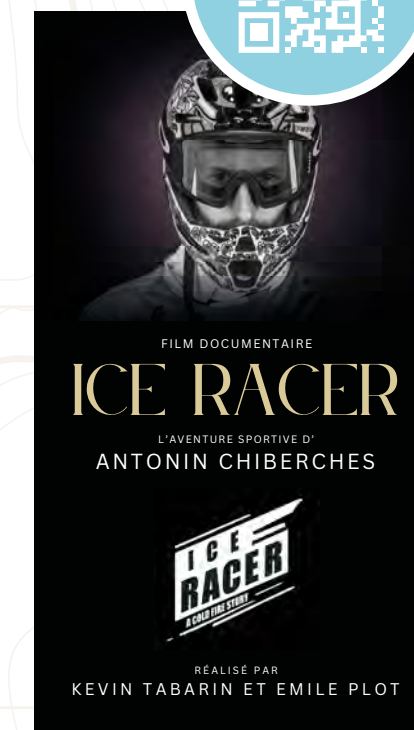

Will we be able to see your film on the big screen ?

Soon... We were approached by the local television and I would like it to be more widely broadcast. We have also created, along with volunteers, a sports association (Ice Fire), to develop Ice Cross in France and Internationally, and which aims to orientate people towards the practice of this sport.

What a wonderful journey and a beautiful adventure. We wish both you and your film a long career and thank you for sharing this lovely moment with us.

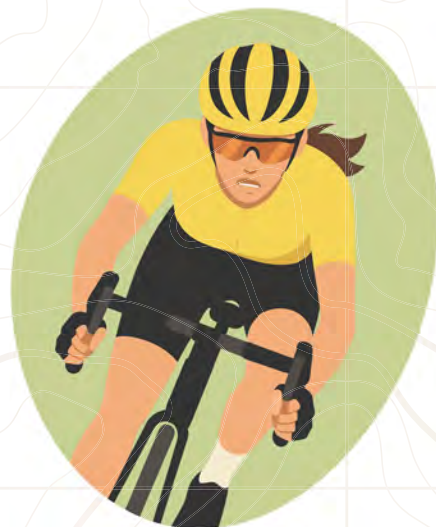

Thanks to the Praz-sur-Arly town council, the Tourist Office, Emile, my parents, my friends and family, my teams and my sponsors for your encouragement and support.

RETROSPECTIVE TOUR DE FRANCE

by Marion Rousse

MOUNTAIN BIKE STADIUM

THE PROJECT

The objective is to create progressive mountain bike (MTB) routes accessible to everyone, enabling practice for both beginners and experienced riders. These itineraries will incorporate more technical and demanding natural and artificial sections, whilst also offering gentler variations for beginners.

Two distinct zones will be developed which will enable the following:

To offer trainers the possibility to vary their routes and achieve different teaching objectives

To expand the leisure activities on offer for families with fun and suitable circuits

To complete the existing offer already present in the area, alongside the Val d'Arly FFC MTB site, the Saisies Espace Diamant, and the Portes du Mont-Blanc MTB Area

The project is a priority for the Cycling Club, which is developing its MTB section; it will also serve the school and the general public.

BEHIND THE CRAZY GOLF

Overcome the obstacles

2 routes have been created in the Plaine des Belles area; they could host new types of competitions. This initiative is part of the framework and implementation of territorial sports projects (PSTs). These funds, managed by the regional services, aim to finance employment, the "Savoir Rouler à Vélo" (Learning to Cycle) programme, as well as other actions promoting sport and health.

The 4 elements as seen from Praz-sur-Arly

A cross between poetry, photography, and a child's perspective

IN THE VILLAGE FROM
DECEMBER 2025

Each day in Praz-sur-Arly, the mountain offers a unique sight: the cool, crisp air descending from the summits, the water from the torrents that shape the valleys, the fire of the sun and the seasons that set the landscapes alight, and the generous earth which nourishes and welcomes. These fundamental, universal, and timeless forces find a particular resonance in the exhibition "The 4 elements as seen from Praz-sur-Arly".

This artistic project was born as a result of a conversation between two creators:

Jean-Pierre Lemesle, a poet whose words reveal the essence of the elements and open paths towards the imaginary and sensitivity.

David Carpano, a photographer, who captures in his photos the raw beauty and delicatessen of the moments offered to him by the mountains.

Their perspectives meet and respond to one another, weaving a work of art together, where poetry converses with light and form.

This exhibition would not be complete without the valuable participation of the children from the Praz-sur-Arly school. With their spontaneity, their fresh approach, and their creativity, they have contributed with their own vision of the four elements. Following workshops with Jean-Pierre Lemesle and David Carpano, their work will enrich and extend the artists' universe. Thanks to them, the exhibition becomes a truly collective adventure, where wonder is passed down from generation to generation.

Meet the locals

by Gaëlle Emonet

WHETHER THEY ARE NATIVES FROM HERE OR ELSEWHERE, THEY HAVE CHOSEN OUR VILLAGE TO PRACTICE THEIR TRADES. WE ASKED THEM SOME QUESTIONS ABOUT: THEIR FAVOURITE PLACES, THEIR PASSION FOR WORK, WHY THEY CHOSE OUR VILLAGE AND A SPECIAL MEMORY DISCOVER THEIR ANSWERS WITH COMPLETE SIMPLICITY IN THIS PORTRAIT

BENJ' ELEC

ORIGINALLY FROM BOURG-SAINT-MAURICE

Gaëlle_ What's a 'Borain' doing in Praz-sur-Arly?

Benjamin_ When a 'Praline' comes down to Bourg, inevitably there is love in the air, so I came here. I was immediately charmed by the village and its atmosphere.

Gaëlle_ Tell us about your job...

Benjamin_ Since I was little, I have been fascinated with everything that touches electricity, fuses, circuit breakers, all sorts of experiments. When you connect the wires and it lights up and makes all sorts of appliances work, it's magic. Ah, I have had electric shocks, but that has never stopped me. 23 years in the job, and I am proud of it.

Gaëlle_ A significant memory?

Benjamin_ The hot air balloons taking off... Such beautiful colours in the Praz-sur-Arly sky! It's majestic and soothing to watch. The balloons really are a part of the Pralin landscape.

SYLVIA PORTERAT
INTERIOR DECORATOR
UPHOLSTERER

OPEN SINCE FEBRUARY 2024

Gaëlle_ Where do you like to spend your time?

Sylvia_ Here in Praz, it's magnificent! There really is something special about it.

Gaëlle_ Sewing is a universe of precision and creativity: tell us about your job.

Sylvia_ My grandmother was a dressmaker, she taught me and passed her hobby down to me. I studied sewing, and my passion has lasted for 25 years. What fascinates me: giving life back to old armchairs, shaping material, dressing walls and windows, and seeing the joy on the faces of people when they rediscover their interior completely transformed.

Gaëlle_ A special memory?

Sylvia_ As a child, I holidayed at the Gentiana. Years later, I began my trade just opposite there! For me Praz meant relaxation, celebration and especially the "Médiévaes", a magic trip back to the Middle Ages.

ANNE-CÉCILE
FASANO COIFFURE

ORIGINALLY FROM HERAULT

Gaëlle_ You've known the Haute Savoie for a long time, why did you choose our village?

Anne-Cécile_ I like the life here, the beauty of the area, that it lives all year round and there are the different seasons: never the same, without any routine.

Gaëlle_ After so many years in the job, your pleasure remains intact. What's your secret?

Anne-Cécile_ I take real pleasure in my work and in making people feel beautiful. Every experience is unique and helps me understand my clients' needs and desires, creating genuine confidence between us. As they say, a hairdresser is like a therapist—who also makes you beautiful.

Gaëlle_ What mustn't you miss in Praz?

Anne-Cécile_ Thursday evenings, I love the atmosphere, everyone's good humour and the road being closed, which gives a feeling of tranquility and freedom.

LA FERME À PAPY

TOOK OVER THE FARM IN 2020

Gaëlle_ Where's your favourite place?

Bertrand_ Ever since I was little I've been lured by the greatness of the alpine pastures and the one that I know inside out, and that I still adore is Ban Rouge.

Ophélie_ For me it's Praz lake, the calm of the water is so relaxing and exotic, it's a little corner of paradises.

Gaëlle_ Tell us about your job.

Bertrand_ Our work is fascinating. What we both love is our relationship with the animals from the day they are born, a connection that grows over time. Our cows provide us with a remarkable product that is part of our daily life. Our work also gives us a real understanding of the rhythm of nature, as well as enjoying the contact with the locals and holidaymakers who purchase our product.

Gaëlle_ A significant memory?

Bertrand_ When I was in primary school and I went skiing you had to take two lifts to go up to the crêt du Midi, it was very long, especially when it was cold. Now with the new lift, it is super and fast.

Ophélie_ For me it's the opening of Praz lake that really boosted the population, it's fantastic.

METALWORK
MORAND

FORGE IN OPERATION SINCE 1970 : 3 GENERATIONS

(2 people are currently working there - Pascal, who completed his CAP - Vocational Aptitude Certificate - and has 3 years of experience across the two Savoie regions.)

Gaëlle_ Describe your favourite place...

Roger_ For me, everywhere in Praz is unique and magnificent. With the 4 seasons, it changes all the time, I am always filled with wonder.

Mickaël_ For me, it's the private pasture des Châteaux, a beautiful hike, sleeping under the stars, and I can't hide my joy when I see a shooting star.

Gaëlle_ There aren't many Blacksmiths around any more, tell us about your job.

Roger_ I learned the trade on the 27th October 1955, that date is etched on my mind forever. For 3 years, I was fitting horseshoes to the horses' feet. You had to stay calm, be precise, and be careful not to get kicked. And then one day, it just clicked; I struck out on my own, and after 65 years, I still have just as much love for this profession.

Mickaël_ I came across it at a very young age. I learned with my father when I was 10. I used to weld snow stoppers; I was fascinated by the material, the shaping of the iron that bends under the effect of heat, and which then regains its hardness for a lifetime.

Gaëlle_ What will you never forget in Praz?

Roger_ I participated in the elaboration of 80 seats for the Rosière Chairlift by welding the safety guards. I am moved, as there is a part of me in the creation of the ski lifts.

Mickaël_ When working on the ski area, I enjoyed witnessing the transformation of the ski lifts, the evolution of the artificial snow, and the lake that supplies our snow cannons

AMBROSI
MULTISERVICES

ORIGINALLY FROM LA CIOTAT

Gaëlle_ Where's your favourite place?

Fabrice_ Le Novex on the way to Les Bernards, my place of life, my paradise.

Gaëlle_ Why did you choose Praz-sur-Arly?

Fabrice_ Firstly for love: my wife comes from here, I also loved the village straight away. In Praz, the stillness, the quality of life and the mentality of the inhabitants who know how to take time, relaxes and soothes me.

Gaëlle_ A significant memory?

Fabrice_ My first summer camp was in 1985 at the Chalet du Remonte-Pente, connected to the town of La Ciotat. I still cherish wonderful memories—crazy golf at Chantalouette, camping, and unforgettable adventures. Years later, I met a 'Praline' with whom I started a family. I believe nothing happens by chance: coming to Praz was meant to be, and it makes me very happy.

Le Haut

*Est-ce que le haut donne le vertige
Ou donne-t-il simplement accès à la liberté
A l'épanouissement
Celle de vous écrire aujourd'hui
De dire à haute voix : vivre !
Ce fameux haut dit inaccessible... et pourtant
Qui culmine la tête dans les étoiles
La neige glacée au bout du piolet
Le nu bleu dans son intégralité
Les lèvres des nuages qui chuchotent des légendes*

*Et toi
Allongé dans l'herbe épaisse luxuriante
Là à Praz-sur-Arly
Devant ce paysage sans limite
Petit face aux grands
Tu observes... tu rêves
Puis tu souris*

Sainte-Marie Madeleine Church

The Neo-Roman Gothic style church is in the heart of the village. It's quite different to the usual Baroque churches in the Mont Blanc valley, but is nonetheless worth a visit!

'Lou Gapians Du Pratz' Local Folk group

Since 1986, this local folk group made up of about twenty enthusiasts heartily perpetuates the traditions of Praz-sur-Arly, through songs, dances and costumes from the past. Their name 'Gapian' is a reference to the ancient customs officers of the large Franche zone (1860-1923) when the border passed between Praz and Flumet. But it also conjures up an image of someone who is mischievous, a rascal, full of life! With a festive and convivial atmosphere, the Gapians reproduce scenes from the past, telling the story of the village and its inhabitants. Their shows are a real immersion into the vibrant cultural heritage of the Val d'Arly.

THE TONNAZ HAMLET

Discover the mysteries of Praz-sur-Arly and unfold the Pralin heritage with our guide's explanations.

The first human settlement in the village which dates back to the middle ages! In the past, the village of Praz-sur-Arly was divided into hamlets called 'dimeries', which were Réon, le Pratz de Megève and the Thona which was the most inhabited of the three. At the hamlet of la Tonnaz you can still see a bread oven from the 17th century, traditional farms and a cross which is implanted at the base of the ancient chapel which was destroyed during the French Revolution.

Today it is the starting point of numerous hikes and a must see of the Praz-sur-Arly heritage which will delight all amateurs of traditional architecture of the region.

Snowshoeing in autonomy

Not a big fan of sliding downhill but in love with the alpine atmosphere? No problem! In Praz-sur-Arly, you have the possibility to go for a snowshoe hike on our two marked routes from the bottom of the ski slopes (near the car park):

- **The Cassioz loop:** discover a unique viewpoint of the Val d'Arly, taste the charm of life in the hamlets, with this itinerary open to everyone. With beautiful views of Mount Charvin, Megève and Praz, as well as the hamlets of Cassioz and Thouvassières. This loop is a nice introduction for anyone wishing to discover this practice! **Count about 1 hour 40 minutes for a round trip, with a distance of 3km and a slight elevation gain of 150m.**

- **The Evettes loop:** throughout this route, the forest opens into beautiful glades where walkers can enjoy magnificent views of the Aravis and the Arly valley. Have a little stop at the lake of Evettes where you will find two mountain restaurants to have a greatly appreciated break, here a magical atmosphere is guaranteed, especially after a fresh snowfall! **Count about 2 hours 30 minutes for a round trip, with a distance of 4.8km and an elevation gain of 220m.**

*A topoguide of 64 marked snowshoeing routes (310km) in the Pays du Mont-Blanc is also available for sale at the Tourist Office. (2€)

Cross country skiing and walking

A free access walking itinerary doubled with a pisted cross country skiing loop is offered to you thanks to the footbridge that links the Plaine des Belles to the lake in Praz-sur Arly. So walkers and cross country skiers no longer need to go from the bottom of the ski slopes.

Learn to ski

In the past I was a professional in ski-mountaineering, and at the end of my sporting career I was looking for a new challenge in my life, so that is why I applied to become the director of the ESF ski school. I manage a very dynamic team of 40 ski instructors of all ages. Each of these instructors possess a professional bi-qualification and organise their time as they can, or wish. I have instructors who work the whole season and work every day, others who work only at weekends and during the school holidays. Young instructors who are training and who juggle between their study and their preparation course for the state diploma, and to finish, our retired instructors who come to give us a hand as skiing is still a true passion for them as for us all. Our ski school has a very family structure : everybody knows everybody. I know each instructor very well including their weak points but especially their strong points. With this small community, I try to give each person a planning schedule that corresponds to them, and above all to provide the client with an instructor who is competent and attentive, and who enables them to progress with a lot of enjoyment ! I think that our ski school is dynamic, that it values all of our products on offer and that it listens to its clients. A small school, with super instructors in an exceptional area : l'Espace Diamant ski area. Come and see us. We are looking forward to meeting you!

THE ESSENTIALS

The sledge run

Not only does our snow front offer you a space to enjoy all kinds of winter activities, but it also has a sledge run conceived for all ages which is free of charge. The central mattresses and reinforced edges of the track guarantee the safety of all children, big and small.

Walking routes

For a walk to discover the village, its hamlets, heritage or just simply the nature:

Cassioz plain, parallel to the cross-country skiing track. There is a separate track for skiers and walkers so that they do not get in each other's way ! Access is possible across the new footbridge from les Belles.

The Arly Riverbanks, always lit at night, even in winter, to go for a walk along the river.

The must-see Tonnaz and Granges Roads to admire the Massif du Mont-Blanc, on the sunny side of the village, and with a little luck you may see some hot air balloons!

Yéti Garou Tubing

Discover the new gliding activity for everyone : the Yeti Garou Tubing. Sat in a rubber ring, you slide down a specifically built slope. From age 5 onwards. Children aged between 5 and 8 must be accompanied by an adult.

Yooner

Take the Crêt du Midi ski lift, slide down the pistes easily, discover new and surprising sensations, and all of this without needing to learn beforehand...

The Yooner is a way of gliding halfway between sledging and skiing. It is made up of a seat, a shock absorber and a skate. Its user always maintains contact with the ground : their legs and feet remain in contact with the snow. The Yooner is very light and comfortable ! Easy to handle, it's a true invitation to slide. All our sports shops offer it for rent and the ESF offers lessons to discover this new sliding activity.

Espace Diamant

Between Beaufortain and Val d'Arly, Savoie and Haute-Savoie, the Espace Diamant has 192 km of slopes of all levels going through forests, alpine pastures and villages of character.

At each summit, a majestic panorama: Mont-Blanc, the Beaufortain massif, the Aravis... Its 159 slopes connect 6 charming village resorts by ski: Les Saisies, Hauteluce, Notre-Dame de Bellecombe, Crest-Voland/ Cohennoz, Praz-sur-Arly and Flumet.

Thanks to its micro-climate and its proximity to Mont-Blanc, the Espace Diamant benefits from an exceptional snowfall from December to the end of April.

The whole family, from beginners to advanced skiers, will be delighted by this major domain, which has managed to keep its friendly family character.

WALKING, HIKING + THEMED TRAILS

The Tour du Mont Blanc

The "Tour Pédestre du Pays du Mont-Blanc" (160km) is a 3 to 12 day round hiking trip, with many variations, crossing 5 nature reserves, a route for all levels and a complete topographical guide to the FFRP.

Baroque loops

The "Petites Boucles Baroques" are six fun and immersive trails, enabling visitors to discover the treasures of each village in an original and educational way. The theme in Praz-sur-Arly is the French Revolution, which allows a mix of history and discovery in a magnificent natural environment. It's a beautiful way to promote tourism whilst highlighting the value of the local history!

Fun footpaths

There are three fun and educational paths : **le sentier des Contrebandiers** ("Smugglers Trail") et **le sentier du Plan de l'Are**. The comic books "Le Trésor de Fanfouétomas", "La Thonnaz ne sonne plus" and "Le Sentier des Minimouilles" are the ideal tool to help you solve the riddles along the way.

COMIC BOOKS ON SALE
AT THE TOURIST OFFICE

Le sentier des minimouilles

After solving the quest for the smuggler Fanfouétomas's treasure and saving the Chapel bell, Aude, Quentin, Draz and their friends go back to the XIXth Century! With Pistache the cow, they help Lisa and her family to protect their natural water spring which is under threat. A fun adventure to discover and respect nature.

Marked hiking trails

Hiking is a point of honour in the Mont Blanc region! With more than 300 km of marked footpaths, there are countless opportunities to explore the natural beauty of the region. The 15 footpaths that leave from Praz-sur-Arly offer a beautiful variety for hikers of all levels.

Hiking Stars and Tetras

For several years now, Praz-Sur-Arly have reinvented hiking for children by creating their "Étoiles rando" (Hiking stars) et les "Tétras rando", (Hiking Tetras) awards that are given after reaching certain summits. Something to motivate the more reluctant hikers! When you show a photo of the young hiker on one of the summits concerned, you can obtain a certificate and a medal for 2€. All three of the Stars trails are less than 2 hours long. For the Tetras trails, the hikes are longer and with a higher elevation gain.

The hikes concerned are : **les Épinés blanches** for the Bronze Star, **le lac des Evettes** for the Silver Star, **Ban Rouge** for the Gold Star, **Plan de l'Are** for the Platinum Tétras, **Bonne Fontaine** for the Silver Gilt Tetras, and finally **le Mont de Vorès** for the Diamond Tétras.

Draz's news!

After a long absence due to hibernation, DRAZ is back, he's on top form and still as affectionate as ever. You can see him this winter at our different entertainment activities.
