# HERITAGE OF THE PAST

## Sainte-Marie Madeleine Church

The church of Praz sur Arly, in neo-Romanesque-Gothic style, is located in the heart of the village. Very different from the traditional baroque churches that we are used to see in the Land of Mont Blanc, it is not less interesting!

The first stones were laid in 1643, in the form of a chapel, dedicated to Saints Bernart and Magdeleine. Over time, the village continues to expand and the population increases. As a result, in 1696 the chapel was enlarged and became the church of Sainte-Marie-Madeleine, united with Megève.

It changed its status at the beginning of the 19th century and became a parish church. During the revolution, the building suffered many damages, the date engraved on the pediment (1881) refers to the decision on the renovation project.

The parish priest, his vicar, and a strong involvement of the local population made this project possible. The present church was completed in 1887 according to the vows and the goodwill of the Pralins. Little extra for the stained glass windows, which represent four important figures in Savoyard Catholic history, and the rose that let light into the building.

## The hamlet of Tonnaz

Discover the village's first human settlement, dating back to the Middle Ages!

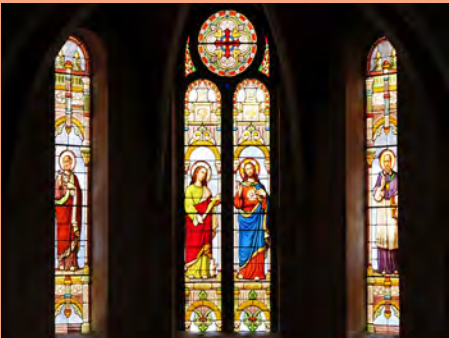

In the hamlet of Tonnaz is a 17th century bread oven and farms

traditional. Formerly the village of Praz sur Arly was divided into three hamlets, called dîmeries, which were Thona, Reon and Pratz de Megève. The most populated was that of Thona where the inhabitants logically built their farms on the Adret, the sunniest hillside. He was dependent on the commune of Megève

and agricultural activity was limited to the daily tasks necessary for survival.

Praz declared his independence in 1834 but did not obtain it until 1869 for cause problems with cutting. Today, the hamlet of Tonnaz is a

A must-see for the heritage of Praz sur Arly, which will delight lovers of traditional architecture in the region.

## The cross of the Tonnaz

It is the story of a cross that has found its place in the heart of the hamlet of Tonnaz after 225 years of waiting, thanks to the mobilization of the inhabitants of the hamlet, the association «Praz atre koue e vorandre» and the town hall of Praz sur Arly.

A story that began a long time ago, around the year 1500,

estimated date of construction of the chapel of Thona (ancient spelling

found in archives). The chapel, as well as that of Bonne Fontaine (Flumet), suffered a cruel fate on May 8, 1794: a destruction without appeal, following the annexation of Savoy by France in 1792. The explanation? A suspicion of clandestine worship. The municipality of Megève therefore had the order to

destroy her. A little anecdote: it is the citizen Mathieu Arvin-Bérod, municipal officer, who was appointed to oversee the execution of this decision and after more than two centuries, it is another Arvin-Berod who restores the cross to the former site of the chapel. So the circle is complete and honour is safe!

## Draz Praz's mascot

Draz is a nice dragon, born from dragon contraction and Praz. And this time, the Z is pronounced!

He is the main character of the comic strip "Le secret de la Pierre des Ceutrons", the second volume of the adventures of Quentin and Louis.

### BUT WHERE TO FIND HIM?

Draz lives most often in a cave near the Grêt du Midi, on the ski area, but loves his village too much and therefore has several small landmarks where he likes to relax:

· At the Tourist Information Office, where he often enjoys resting and comes to life at signings and events.

Besides, he loves being photographed!

· At the "Les Pralinous" nativity scene, a portrait of him is still on the welcome panel.

· In Draz's den, in the Varins' bag room. Paintings decorate this space, open to all those looking for a small corner of warmth in winter!

### WHAT DOES HE LIKE TO DO?

· This is the first dragon to learn to ski in the snow garden of the Praz sur Arly ski school!

· The hike, Draz, he loves it! He knows the 15 hikes from Praz by heart! It already has the 3 hiking stars corresponding to the 3 successful walks: the White Epines, the lake of Evettes and Ban Rouge.

### WHAT DOES DRAZ EAT?

Chardon's Flakes, pepper jam or sulfur candy!

### Yooner

The Yooner is inspired by an ancestral craft: the Paret. Used by the school children in winter, at the beginning of the last century, in the Manigod Valley near Thônes in Haute-Savoie. Easily controllable in the slope and very accessible, the «Paret» deserved to receive some improvements to access the ski. This is how the «Yooner» was born. Its playful and easy-to-use side allows you to fully master it on a descent. The yooner is light, handy, with a shock absorber for extra comfort and a skate that allows you to «cut curves» as in skiing. Sitting 20 cm from the ground, like a snow kart, this new machine is a real invitation to slip. Adopt it, guaranteed sensations! All our sports shops offer it for rent and the ESF offers courses to discover this new slide. During the winter season, once a week, the office organizes the Praz Adrenaline Days which will allow you to test the yooner for free!

## WALKING, HIKING AND TRAIL

### Long hike Tour of the Mont-Blanc Country.

The «Tour Pédestre du Pays du Mont-Blanc» (160 km) is a 3 to 12 day tour, many variations, the crossing of 5 nature reserves, a route for all levels and a complete guide to the FFRP.

### The Crêt du Midi chairlift

The Crêt du Midi chairlift will be open in July and August. (9h45-12h20 and 1 pm-4 pm).

**Always closed on Fridays and Saturdays.**

Departure of many hikes including the trail of Smugglers. Accessible to pedestrians and mountain bikes.

**Summer 2023 rates:**

• **Uphill fares** (indicative of the descent is free):  
**Adult : €6.90 • Child** (ages 6-16): **5€ • Toddlers** (-6 ans) : **free.**

• **Day rates** (unlimited access for Crêt du Midi chairlift and chairlifts Open Diamond Space):

**Adult : 15€ • Child : 12,50€**  
**Children : free of charge.**

### The trail of smugglers

Based on the history of smugglers of the region, with a comic book as topo-guide, this hiking idea allows to launch children in a treasure hunt in the mountains.

Playful panels allow to find a secret code and solve puzzle. The comic strip «The treasure of Fanfouétomas» (44 pages, 6€) is the tool to help you solve puzzles along the Smugglers Trail, a fun course created at the top of the Crêt du Midi chairlift. Count a half-day family walk at 1700 meters altitude, to find, you too, the treasure of Fanfouétomas ! Comics for sale in shops and the Office tourist.

### Marked hiking routes

The queen discipline of summer is in the spotlight in the Mont Blanc region with more than 300 km of marked trails. 15 trails are signposted from Praz sur Arly. Before you go to the mountains, prepare your hike. We recommend the Belvedere du Mont-Blanc with a guide of 56 walks, for sale 6€ at the Tourist Office and on our website.

### The hiking stars

The hiking stars reward children at the end of the hikes. On simple presentation of a photo of the young hiker on one of the three peaks concerned, a diploma of achievement and a medal (2€), in the form of edelweiss, he will be delivered. All three randos are less than 2 hours.

• **The White Epines (bronze star).** This circuit will favour the panoramic walk, facing the Mont-Blanc massif and the whole Val d'Arly. The main themes on the playful panels will be landscape reading, the forest, slates, farms and the history of Praz sur Arly.

Altitude difference: 190 m Walking time: 1h15 A/R.

• **The Evettes Lake (silver star).** The route will offer a marmot observation site, which is extremely rare at such an altitude and in such an environment mainly forestry. Children will love it! Height difference: 270 m Walking time: 1h50 A/R.

• **Red Ban (gold star).** Red Ban is one of the highest peaks in Praz on Arly. At 1983 meters, the view is 360° on the 3 massifs: the Aravis, the Beaufortain and the Mont-Blanc. Altitude difference: 253 m (since the arrival of the Crêt du Midi chairlift) Walking time: 2h A/R.

• **Good fountain (Grouse):** that will take you to a place where the water has sacred virtues. 1h climb from the parking lot of the Plans, 200 meters of altitude difference. This hike can be combined with the platinum grouse, since it takes the same departure. 2h30 A/R.

• **Mont de Vorès (Diamond Grouse):** a hike under the gaze of Mont-Blanc White and maybe the grouse who took his quarters there. Accessible from the arrival of the chairlift of the Crêt du Midi plan, 2h of climb with 500 meters of altitude difference. 4h A/R. (6h A/R from the village) 4h A/R. (6h A/R depuis le village)

Few sports activities are so varied! Canyoning consists of moving in the bed of a stream, passing through narrow gorges or ravines. Located in the mountains, these steep canyons feature waterfalls of different heights that are crossed in multiple ways: jump, slide, or abseil. We do not use boats! It is above all a way to explore places of great beauty that nature has shaped over time. Refreshing memories guaranteed!

(pancake, popcorn, candle).

Equipped with a reinforced suit, fins and a float, the swimmer in hydrospeed follows the trajectory indicated by the guide. This practice allows to fully feel all the movements of the living water. The possibility to play in the reels and surf in the waves, make it a very playful activity.
